

Choice

Overview

Choice activities appear in many units. These include questions for learners to answer before, during or after a unit, and will help you gauge your learners' interest or prior experience.

Choice – Instructor and Learner Experience

1. Click on the *Choice* activity link.

2. Read or listen to the question and look at the response options below the image.

1. Before you begin

What colour do you like to wear?

▶ 0:02 / 0:02 ————— 🔊 ⋮

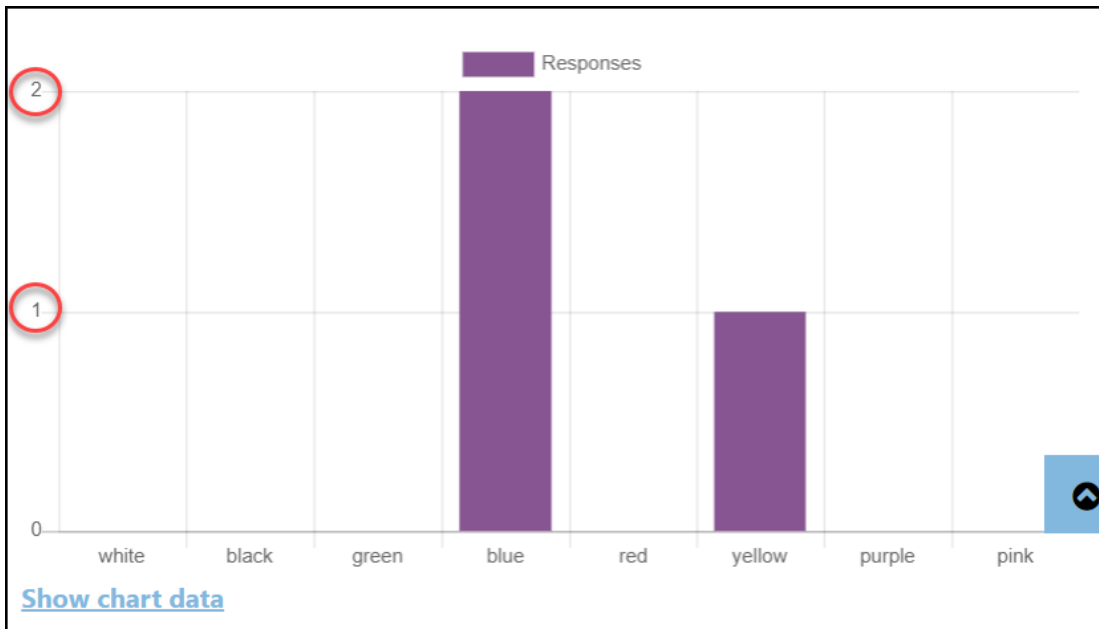

- white
- black
- green
- blue
- red
- yellow
- purple
- pink

Save my choice

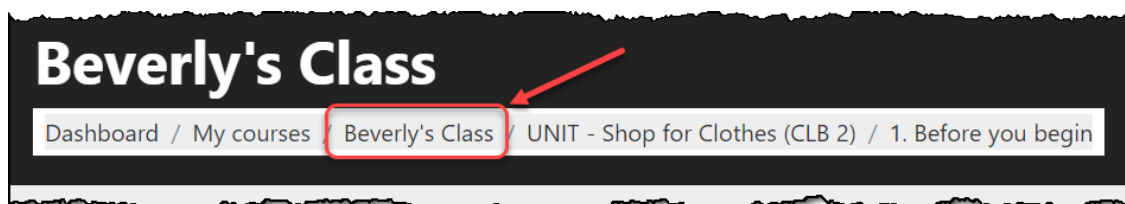

3. Click the button beside your response, and click on the *Save my choice* button.

Below the choice buttons, depending on the settings, you may see the answers provided by users.

A *bar graph* may also appear (for both learners and instructors) showing the number of users who chose each response.

4. To return to the course, click on the course name link in the *Breadcrumb menu*.

Choice – Instructor view

To see details of learners' choices, click the *View X responses* link.

Instructors can delete or change learner responses.

1. Use the checkbox to select the response in questions.
2. From the *Choose an action...* menu, select *Delete* or the new response required.

	His supervisor tells him or her	His coworker
