

Flashcards

Overview

Flashcards can be found in some units and are set up using the *Database* activity. A *Flashcards* activity is a quick way for learners to review the content of ALL reading topics in a unit. Learners need to try at least one *Flashcard* to earn an *Activity Completion* check mark. Learners can also repeat or change the order of the cards. If desired, instructors and learners can add more *Flashcards*.

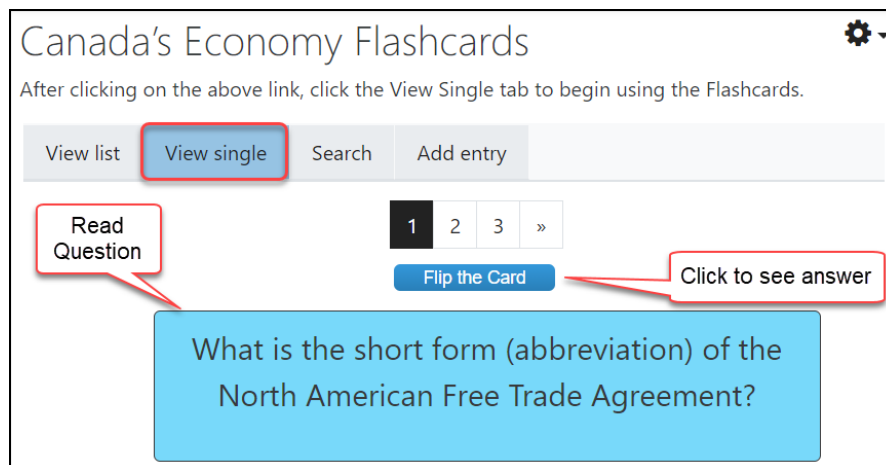

Flashcards: Learner Experience

To attempt a *Flashcards* activity, learners need to:

1. Click on a *Flashcards* link.

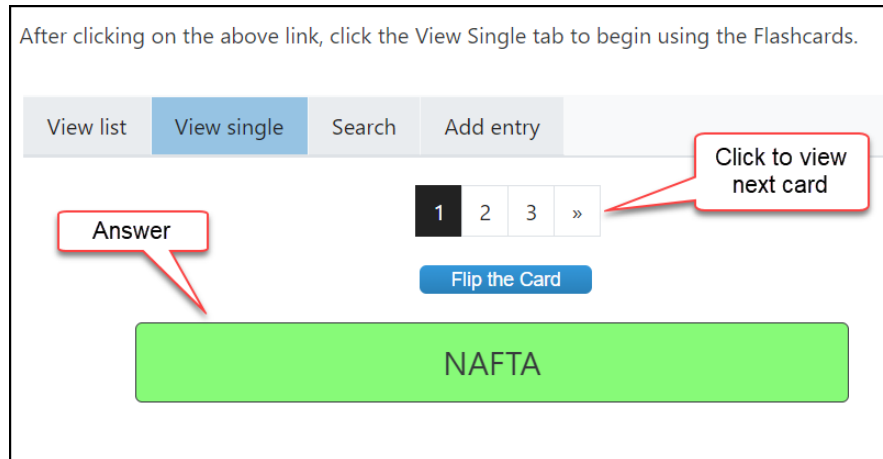

2. Click the *View single* tab. Read the question, and think of the answer. Click the *Flip the Card* button to see the answer.

The answer appears.

3. Click on #2 or the double chevron to move to the next card.

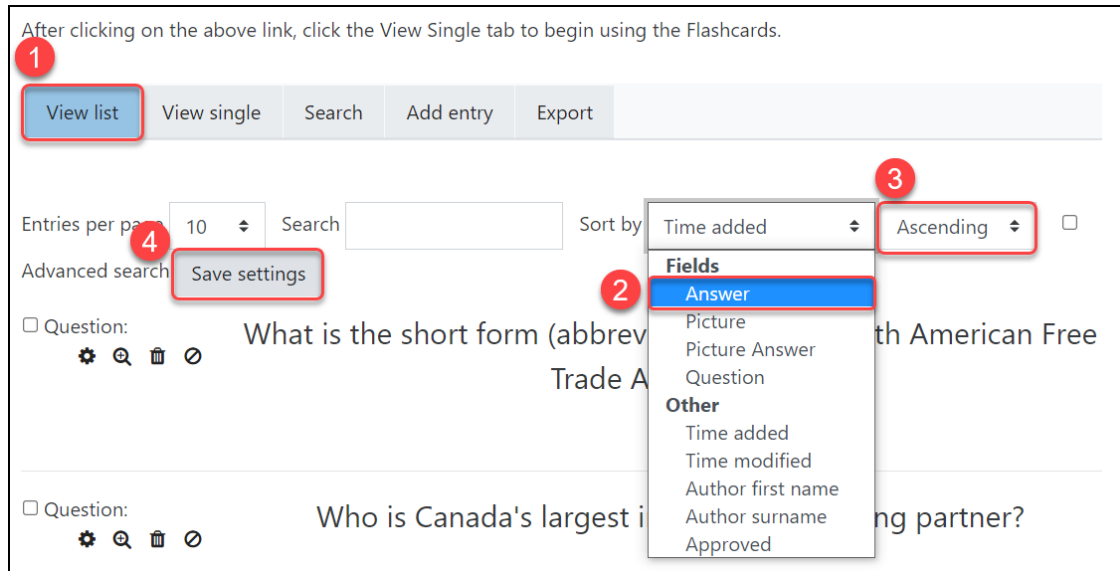

For learners, it is a good idea to do all of the cards, and even to repeat the activity. When learners repeat the activity, suggest that they give themselves a challenge and rearrange the order of cards.

Rearrange the Order of Flashcards

After clicking on the *Canada's Economy Flashcards* link,

1. Click the *View list* tab.
2. Click on the *Sort by* dropdown arrow and choose *Answer*.
3. Change the order from *Ascending* to *Descending* order in the *Ascending* dropdown arrow.
4. Click the *Save settings* button.

Now, when you click on the *View single* tab, you will see that the order has changed.

Learners and Instructors Can Add their Own Flashcards

By default, learners and instructors can add their own *Flashcard* entries. To do this:

1. Click the *Flashcards* link.

2. Click the *Add entry* tab, and input the question in the *Question* textbox.

After clicking on the above link, click the View Single tab to begin using the Flashcards.

Answer:

HTML format ▾

TIP: Copy & Paste a YouTube Link to embed a video in the textbox.

Note that optional pictures can be added to the question and answer by uploading an image file or using the drag and drop function, if desired.

4. Click the *Save and view* button, or the *Save and add another* button, if needed.

Note that instructors can edit or delete all entries by clicking on the *Edit* or *Delete* icons next to each.

Learners can only *Edit* or *Delete* their own entries.
