

Participants

The *Participants* page provides access to a list of course participants. This page provides user information such as a learner's email address, and when they last accessed the course. It can also be used to send Moodle Messages and to access an individual learner's reports, blogs, notes and profile.

Opening the Participants Page

- 1. On the main page, open the Navigation drawer.
- 2. Click on the Participants link.

3. Click the *Navigation drawer* button again to close the *Navigation drawer* so that you have more room available on the page.

The *Participants* page appears. Each column can be sorted by the column headings. Clicking on one of these headings sorts the participants' list alphabetically in ascending to descending order, or vice versa. You can also filter by the letter of a participants' first name or last name by choosing a letter from the appropriate row.

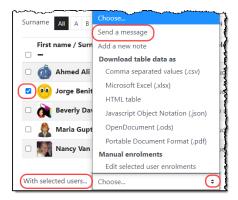

Sending a Message from the Participants Page

1. Put a tick in the checkbox next to a learner's name, and choose the *Send a message* option from the *With selected users* prompt at the bottom of the *Participants* page.

2. Type your message, and then click the Send message button.

Finding Information about Your Participants

Click on a learner's name in the *Participants* list to get more information about that learner.
