Quiz

Overview

Quiz activities are often used for review and end-of-unit assessments. A Quiz may include different question types, such as multiple-choice, drag and drop, short answer, true-false, and others. In the example, we will see a Quiz with multiple-choice questions. Quiz results are recorded and displayed on a summary screen.

Review Quizzes often allow you to repeat the Quiz to help you with your learning. Quizzes used for testing usually only allow one attempt. Both types of Quizzes may be timed.
