

Navigating the Onyx Resources Tab (Learners)

Learners have easy access to Stage I and Stage II resources. These resources are available after logging in to Onyx.

1. Hover over the **Resources** tab on the banner.

A page of resources opens, with a list of links in a panel on the left.

Learner resources include Orientation to Onyx (by CLB range), Tips for Learning Online, and Orientation to PBLA (by CLB range).

2. Click on your CLB level. In this example, we will click on CLB 5+.

3. Click on your choice of file.

When a choice is clicked, a file or activity will open in the current screen. In this example, a CLB 5+ H5P activity opens.

4. Hover over **Resources** to select a new activity or file, or click the **Home** tab in the banner to exit the activity or file.

Note that the **Onyx Code of Conduct** is available below the resource choices on the **Resources** page.
